The new macro fertilizer product Golden Haryali (Nitrophos- NP) continues to go from strength to strength with the period and increasing awareness of the farmers both of the product and its benefits. However, the Company successfully achieved NP sales volume 74,675 Kg i.e. 6% of the sales for the period under review. The management is focusing to continue farmers/dealers awareness programs & meetings and also extend its field work in order to grab potential market.

The operating expenses and finance cost has been reduced by 6% and 14% respectively as compared to the same period last year by efficient working & effective utilization of resources.

FUTURE OUTLOOK

We aim to carry on our journey of sustainable and profitable growth in the future. We continue to focus and invest on the fundamental strengths ie. Our responsibility is expressing a conclusion on this condensed interim financial information based on our review. The figures of the condensed interim profit and loss account for the quarters ended December 31, 2014 and December 31, 2013 have not been reviewed, as we are required to review only the cumulative figures for the half year ended December 31, 2014.

Based on our review, nothing has come to our attention that causes us to believe that the annexed condensed interim financial information as of and for the half year ended December 31, 2014 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for the condensed interim financial reporting.
